FINANCE AND COMMERCE.

WASHINGTON, Wednesday Evening, July 28.
Wa'l street is resuming the even tenor of its
rays, and almost every vestige of the disturbance and panic which was thrown into the habitues of the street yesterday by the bank suspension has yielded place to a feeling of confidence, and to a quietude such as usually prevails during the summer months. The suspension of the Commercial Warehouse Company has had little effect this morning. The stock market is beginning again to act natural, and the gold market will shortly e relieved of its abn of the foreign markets for United States bonds and other causes. The commercial importers may not be as much harassed as the prospects or esterday promised.

Amid all the excitement in New York and

Washington District securities have remained in-tact at former rates, and the past few days have developed no disposition to sell out, which may be due to the approach of interest day.

Messra. Sherman a Grant, No. 1425 F street, quote the following buying and selling rates for Governments, gold, ac.:

Speculative shares opened 14814 higher. There was a decline of 146134 during the first half hour, which was afterwards completely recovered. The The following are the closing rates for stocks, telegraphed from the New York Stock Exchange to Sherman & Grant:
